

KABUKI REVEALS

The Kabuki Reveak is a technique (generally used in Theatre and Special Events) where a drape or other lightweight fabric is quickly dropped from the ceiling to reveal the stage/performers/product. It is a modern day special effect based on the Kabuki theatre's technique of rapid appearance of actors.

Cell with clamp

3 Cells on Truss

2 Channel

4 Channel

N4 Light

N4 Barrel

Power Injector

Power Con

Signal Splitter

Fabric Clip with Ring

SPECS

- » Power: standard 120V 60Hz
- » Dimensions: 4x4x8 inches (not including clamp)
- » Weight of each release unit: 7 lbs. (with clamp)
- » A single Cell Unit can hold and release 720+ pounds
- » Attachment clamp: 2" Mega-Coupler designed for standard 12" truss and 1.5" lighting pipe (other attachment methods are available)
- » Safety cable with quick clip attachment
- » 10 unit system drops a 70' curtain regardless of height, weight or direction of pull, which may be important in outdoor venues where wind can be a factor
- » Kabuki Drops are capable of a wide variety of release applications, they are not limited to just curtain drops
- » Optional Power Injectors and Control Signal Splitters are available for larger systems
- » Made in the USA

SYSTEMS

- » A typical system consists of 10 Kabuki drop units two channel control box
- » PowerCon to Grounded Edison Parallel Blade 15amp male AC supply Cable
- » 25-50' Home Run 12/4 NL4 Speakon Cable (controller to first cell)
- » 12/4 NL4 Jumper Cables 3-10' (jumpers between cells)
- » End of line NL4 Test Light
- » Drop Rings attached to locking fabric clips
- » Systems are available for any size drop or curtain configuration including double drops. Kabuki systems can range from 1 unit on up
- » 4 Channel Controllers are available for multiple applications
- » Complete 10 unit system is packed in a durable and easily maneuvered rolling pelican case with a pull out handle and is not considered freight! It is easily shippable via Fed-Ex or UPS, weighing between 95-140 lbs.
- » Road cases are available for touring (contact us for details or with lead time)
